1.歸還功能 (Return function)

- 每次租借，系統的存貨將自動扣減；歸還時於「交易紀錄」、「今日紀錄」或「處理未還」按「銷售備註」，顯示借出項目的詳細資料，於任何一「備註」欄輸入貨品條碼，如輸入的貨品編號屬於是次交易，「未還數量」將扣減至零或計算出未還數量，存貨數量會自行增加
- Inventory auto deduct when borrow and add after return
- Choose Remark from Sales record, Today sales or Manage outstanding. Input item's barcode in Remark field, if the item number regard as this sale, Outstanding will update

2.每件貨品租借出次數 (Number of times lease)

- 於交易分類輸入該項貨品的條碼編號，項目位置便會顯示出租借次數
- In Scategory, input item's barcode number to search the number of times that item has been leased

3.自動計算歸還日期及顯示會員編號於單據

- Auto calculate return date and show member id on the receipt

4.處理未還 (Manage outstanding) / 遲還 (Manage late record)

- 按「未還」、「遲還」即可查閱未還貨品的資料及詳細分類，遲還以*號顯示
- Click Manage outstanding to check outstanding items and details, late return record are shown by *

5.查看貨品曾被哪些會員租過 (Check item borrowed by which members)

- 於「交易分類」輸入該項貨品的條碼編號，再輸入結果顯示的參考編號便可
- From Scategory, input item's barcode number to search, then input the reference number as shown

6.按金租借 (Deposit lend, newest version available in Chinese version) (最新版按金功能為中文版)

- Input deposit in Mitem. Select Deposit to place order. To return, click Remark => Return deposit, input the return deposit amount, quantity, customer number and reference number, then return item the same as Lease function. Please note that lease fee will be calculated as profit. Everyday, weekly, monthly's profit, deposit to be returned ,drawer cash as well as total amount will be calculated
